

Young Democracy.

To the young men of this country there is not only a lack of inducement for their support of the Republican national platform and ticket of 1900, but a most cogent reason indeed why they should oppose such a platform and such a ticket with all the power possible to them.

The Republican party is committed irrevocably to the domination of the trusts, the most evil influence that has ever developed in American life. Mr. McKinley, elected in 1896 through the financial and moral support of the trusts, is the instrument of the trusts, afraid to move one step in a new direction without trusts sanction. Mark Hanna, who controls his every act, was placed in public life by the trusts for that express purpose and to manage the Republican party in the sole interests of the trusts. Hanna can transform McKinley's entire spinal column to yielding mushiness with one touch of his fat forefinger.

The young men of the United States are by tremendous odds the greatest sufferers from the evil of trust dominance. The inevitable effect of monopolistic combination is to destroy the field of individual effort. It is already practically impossible for a young man, no matter what is training and natural ability, to establish a business of his own to which he can look with reasonable confidence for support and independence. The best he can hope for is to live his life through as an employee of some trust, giving to the monopoly the best efforts of his prime, with no promise of proportionate benefit to himself in old age. The yoke of servitude is placed on the necks of the young American men by those evil combines, never to be removed until they are thrown out of employment as too old to be worth even the poorest pittance of a wage.

The American spirit is the spirit of independence. Until within the past few years every ambitious young American looked forward confidently to establishing himself on an independent footing. The life-clerkships which are the best things possible under the trust system are abhorrent to the minds of the young men of this country. They will not ally themselves with the party of the trusts. They will be found, instead, in the ranks of the Democracy, contending for the principle of equal rights to all—special privileges to none, in which lies the sure safety and welfare of the American people and the destruction of the monopoly combines.—St. Louis Republic.

The Powers' Verdict.

During the reading of the verdict the dropping of a pin might have been heard in the court-room. Powers always pale, showed a little more paleness, and some nervousness. His face fell and tears came into his eyes, but he soon recovered, and his manner took on that coolness which has characterized him since the trial commenced.

The jury was unanimous as to guilt of accused. A ballot was then taken to fix the punishment. One of the jurors (Harris Musselman) favored death by hanging.

Juror Porter, the only Republican on the jury, was the first to speak. He said: "Gentlemen, I am a Republican, and I have said that I did not believe Guebel's murder was the result of a conspiracy. I did not think Caleb Powers could be guilty, but I have heard the evidence, and I am convinced that he is."

One of the jurors said that the jurymen were influenced in making up their verdict by many things in the evidence, but that some of the chief points were Powers' own admission on the stand that he organized the crowd of 1,200 armed mountain men which came to Frankfort January 15, his corroboration of parts of the testimony of Noakes, Golden and Cullen, the evidence that he gave Yates the key, and that the shot was fired from Powers' office.—Georgetown Times.

The State Prison Commissioners have closed a contract with a Nashville firm for the employment of 150 of the convicts at Eddyville at 40 cents a day for each prisoner.

There will be no encampment of State troops this year, as there are no funds available for that purpose.

A Mother Tells How She Saved Her Little Daughter's Life.

I am the mother of eight children and have had a great deal of experience with medicines. Last summer my little daughter had the dysentery in its worst form. We thought she would die. I tried everything I could think of, but nothing seemed to do her any good. I saw by an advertisement in our paper that Chamberlain's Colic, Cholera and Diarrhoea Remedy was highly recommended and sent and got a bottle at once. It proved to be one of the very best medicines we ever had in the house. It saved my little daughter's life. I am anxious for every mother to know what an excellent medicine it is. Had I known it at first it would have saved me a great deal of anxiety and my little daughter much suffering.—Yours truly, Mrs. Geo. F. BUDICK, Liberty, R. I. For sale by M. Cravens.

While working in a stone quarry, near Pewee, Sim Scoess and his son Logan were killed by the premature explosion of dynamite. The latter had both hands blown off. George Shiscar, who was working with them, had both eyes blown out.

The Bravery Woman

Was grandly shown by Mrs. John Dowling, of Butler, Pa., in a three year's struggle with a malignant stomach trouble that caused distressing attacks of nausea and indigestion. All remedies failed to relieve her until she tried Electric Bitters. After taking it two months she wrote: "I am now wholly cured and eat anything. It is truly a grand tonic for the whole system, as I gained in weight and feel much stronger since using it." It aids digestion, cures dyspepsia, improves appetite, gives new life. Only 50c. Guaranteed, at T. E. Paul's Drug Store.

Roy Kleiser, a young man of Shelbyville, was on his way to make a call on a young woman at night when some one fired at him from the road, the bullet passing through his arm.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years Doctors pronounced it a local disease, and proffered local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by J. C. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

OUR GLORIOUS COUNTRY.

Have you watched its marvelous growth? If not, The Weekly Enquirer wants to study the strides it has made. The first census of the United States was taken in 1790. Since then every succeeding ten years. The result has been as follows:

Year.	Population.	Year.	Population.
1790.....	7,239,881	1880.....	31,443,321
1820.....	9,633,822	1870.....	38,558,371
1830.....	12,866,020	1860.....	50,155,783
1840.....	17,069,453	1850.....	62,822,250
1850.....	23,191,876		

Here you have the figures of a basis of calculation. The problem now is: What will be the population of the United States, excluding recent acquisitions. The result is usually announced in July of the census year.

THE WEEKLY ENQUIRER is anxious to engage all in a study of their country. To this end it will distribute cash amounting to \$25,000, for solutions received of the population of the United States Census, as follows:

To the first nearest correct guess received.	\$3,000.00
To the second.....	1,500.00
To the third.....	750.00
To the fourth.....	500.00
To the fifth.....	250.00
To the sixth.....	200.00
To the seventh.....	150.00
To the next 10, each \$100, amounting to.	1,000.00
To the next 50, each \$50, amounting to.	2,500.00
To the next 100, each \$25, amounting to.	2,500.00
To the next 500, each \$10, amounting to.	5,000.00
To the next 1,500, each \$5, amounting to.	7,500.00

2197 cash presents amounting to \$25,000.00

In case of a tie, money equally divided. Every guess on the above proposition must be accompanied by a year's subscription to the WEEKLY ENQUIRER. You can guess as often as you care to inclose subscription price to the WEEKLY ENQUIRER.

This contest will close a month before the result of the census will be known and officially certified by the Director of the United States Census at Washington, D. C.

Subscription price for the WEEKLY ENQUIRER (including guess) is only \$1.00 a year. Eleven copies and eleven guesses for \$10.00. For full particulars see WEEKLY ENQUIRER. Send all orders to ENQUIRER CO., Cincinnati, Ohio.

22 Months of Sleeplessness.

Mrs. M. J. Truckenmiller, of Milton, Pa., Regained Her Health by Using Dr. Miles' Restorative Nervine.

NERVOUS PROSTRATION, hysteria, sleeplessness, spasms, convulsions, headache, etc., result from a deranged condition of the nerve centers in the brain, which if allowed to continue without relief, must result in a general breaking down of the nervous system.

Dr. Miles' Restorative Nervine has cured nearly every case of these disorders, where directions have been followed.

Mrs. Truckenmiller is a prominent lady in the town where she resides, and the facts relative to her sickness and recovery are well known to her neighbors and friends. She writes:

"My nervousness came on from having LaGrippe. It left me weak and exhausted, and I got a fright which prostrated me, and then followed that horrible disease. For twenty-two months I never knew what it was to have a night's sleep. I had spasms that lasted from four to five hours, and my cries were heard three and four squares away. This is not half my suffering. My sickness cost my husband \$800.00 that never did me any good; I seemed to get worse. Finally we tried Dr. Miles' Nervine. The first night I slept a natural sleep, awakening in the morning feeling as if I were in heaven. From that time on I commenced to improve, and now am entirely recovered. I only wish I could tell the suffering ones what Dr. Miles' Nervine has done for me."
